Forecast For The United Kingdom
Issued by Met Office Exeter
at 0400 on Wednesday 21 Jul 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Very hot weather continuing for many. Some thunderstorms in east.

Today:
Very hot and sunny for many, with a few thunderstorms in the east during the afternoon. Cloudier start in the north and northeast though breaking up during the morning. The far north staying cloudier with a little drizzle possible.

Tonight:
Another very warm and uncomfortable night over much of the UK. Cloud in the far north spreading back across eastern Scotland and into northeast England - cooler here.

Thursday:
Another hot and sunny day for most with cloud clearing much of the north, the far north staying cloudier. Perhaps a few showers developing in central parts by day.

Outlook for Friday to Sunday:
Dry and sunny for most Friday, remaining hot in the west with isolated showers. Rain and heavy showers spreading across southern regions through Saturday and Sunday. The north remaining fine.
